## SUMMARY

MCA graduated from Delhi University with 6 months of hands-on Software Development experience. Proven skills in developing robust applications and a strong passion for innovative technology solutions. Actively seeking new opportunities to contribute to dynamic development teams.

## EDUCATION

### Master's of Computer Applications

Department of Computer Science , University Of Delhi

2022 - 2024

Marks : 6.8 CGPA

### Bsc. Honours in Mathematics

Narasinha Dutt College , University of Calcutta

2017 - 2020

Marks : 66.12 %

### Higher Secondary School

Sri Ramkrishna Sikshalaya, Howrah

2005 - 2017

Marks : 80.8 %

## SKILLS

- Frontend Development :**  
React js, HTML, CSS3, Javascript, Axios
- Backend Development :**  
Node , Express , MongoDB, APIs
- Programming Languages :** C ++
- Other libraries & frameworks :**  
Material Ui , Tailwind CSS, Daisy Ui, Bootstrap
- Backend-as-a-Service:** Firebase
- Database :** SQL
- Tools :**  
Git, Postman, Github, Bitbucket etc.
- Deployments :** Netlify, Vercel, Render
- Soft Skills:**  
Problem solving , Adaptability, Communication

## ACHIEVEMENTS

- Got Badges for maintaining over **50+ days streak** on **Leetcode** and solved over 150+ problems on **Leetcode** and **Codestudio**.
- Completed 2 Virtual **Web development workshops** of 4 weeks from CodSoft, Prodigy Infotech .

## EXPERIENCE

### Synopix

#### Software Developer Intern

Feb, 2024 - July, 2024

##### Krivitech

Handled the entire development using **React**, **MaterialUI** of a fully **responsive** website of it's client & delivered within 2 weeks.

##### Freight-Orbit

- Admin dashboard using **React**, **MUI**, & **Ant Design**, having **10+** pages for efficient data management & visualization.
- Visually appealing responsive UI thorough **5 interactive charts**, **20+** custom components.

##### Pb-Orbit

- Developed frontend & it's integration with backend of a **Pickleball** tournament and game organization software using **React** , **MUI**, **Postman**
- Connected **21 APIs** in **25+ reusable components** & optimized software over 30%.
- 15+ pages** showcasing all **Player & Event admin** functionalities, **Communities, Events , Matches** etc .

## PROJECTS

### 1. TASTYEATS

January, 2024 - July, 2024

Developed a comprehensive restaurant site using **MongoDB** , **ExpressJs**, **ReactJs**, **NodeJs**, **Tailwind CSS**, **DaisyUI**, and 5+ React libraries.

- Managed a dynamic menu of **100+ items** and processed over **50 orders**.
- Ensured secure handling of **15+ user** accounts with **JWT Token** Access and **Firebase** Authentication.
- Implemented user functionalities: **cart management**, **favorite dishes**, **6 menu categories**, online food ordering, **Stripe** payment processing, **ratings & feedback**, and email notifications via **Email JS**.
- Created **5 models**, **2 middleware components**, and **7 custom hooks** for optimized functionality.
- Built an admin panel with analytics through **3 charts**, managing **users, orders, and menu items** efficiently.

### 2. GOLDS GYM

July, 2023 - August, 2023

React based Fitness App, offering exercise category selection, muscle group filtering over 1,000+ exercises with practical examples, pagination, YouTube video integration, and 3+ similar exercise recommendations.

- Advanced **React** Best Practices such as **file structure and hooks**
- Created a beautiful responsive user interface using the **MaterialUI (version 5)**
- Fetches data from unlimited sources using **RapidAPI**

### 3. SOCIALOO

May, 2023 - July, 2024

Visually appealing and user-friendly interface of a social media in **React**, **HTML**, and **CSS**.

- Dark mode** functionality using **React Hooks and Context API**.
- Responsive design** for over **5+** screen sizes .
- styled **10+ components** for the user interface, including a **Navbar**, **Feed**, **Sidebar** etc.
- Utilized **5 React Hooks** for state management and user interactions.
